[leosat2k4@gmail.com](mailto:leosat2k4@gmail.com)

136, NDS Nagar, Salem, TamilNadu

## ABOUT ME

Driven Computer Science student at Government College of Engineering, Salem, with a prior Diploma from Thiagarajar Polytechnic College. Possesses a strong technical foundation in networking and systems, complemented by a practical, problem-solving mindset. Eager to apply hands-on lab experience and CCNA-level knowledge to optimize network infrastructure and contribute to high-performing technical teams. Passionate about transforming complex technical requirements into reliable, real-world solutions.

## EDUCATION

### Government College of Engineering | 2024-2027

Bachelor of Engineering | Computer Science and Engineering

### Thiagarajar Polytechnic College | 2020-2023

Diploma In Electronics And Communication Engineering

## PROJECT

### LeOS

Designed and implemented the 32-bit protected-mode kernel, including x86 boot/initialization, IDT-based interrupts, memory management, keyboard/device drivers, system calls, and the LeoFS filesystem with shell support.

Integrated TinyCC into the OS toolchain to compile and execute C programs at runtime, and built/tested the complete system using NASM, C, QEMU, and real hardware.

### E-Commerce Website

A live client e-commerce website built for seamless product discovery, conversion-focused experiences, and automated customer engagement

## SKILLS

- Computer Networks
- Web & UI Design
- Linux & Build Systems

## TOOLS

- Git & GitHub
- QEMU
- VirtualBox
- Cisco packet tracer

## PROGRAMMING

- C
- Python
- Bash
